E-DUMPER RANGE

For payloads up to **4 tons**

OUTRAGEOUSLY QUIET.
SUSTAINABLE.
CLIMATE FRIENDLY.

BERGMANN

BERGMANN E-DUMPERS –
built for our customers.

#zeroemission

Hans-Hermann Bergmann about the Bergmann e-dumper range

"Our family business has been successfully working for 2 generations in close cooperation with our customers. We start the journey of supporting our customers with logging the transport task, and subsequently develop ideal vehicles under consideration of legal and societal framework conditions. Our work is done with great passion, we are down-to-earth, reliable and competent, to create lasting values for our customers and our company.

We started to develop our e-dumpers and battery technology already in 2016. In the process, the environment and climate objectives have been aligned with our customer's requirements, to enable us to always offer them the most economical transport solution. The Bergmann e-dumper range combines all the attributes you as a customer already know from the large Bergmann dumpers: economical, powerful, user friendly and reliable – just as you'd expect from BERGMANN."

Proven Bergmann quality

"What you can also rely on: The vehicles in our e-range combine high transport performance and user-friendly drive comfort with maximum operational safety. Which is just what you would expect from real Bergmann premium quality 'made in Germany'."

Hans-Hermann Bergmann
Managing Director

Future-proof technology

"As innovative supplier, we also see ourselves as pioneer with regard to battery-electric construction vehicles. Our e-technology helps you to prepare for tomorrow's challenges – and you will benefit instantly: Emission-free drives give you the option to also use your Bergmann e-dumper in protected zones, such as inner-city building sites and indoor spaces.

To extend our e-dumper range, we developed our own modular lithium-iron phosphate battery technology in the 80-volt category, which is scalable from 8 kWh to 80 kWh in 8-kW increments. The Bergmann batteries are characterized by extreme durability, almost 100% recyclability and the option to perform intermediate charging without memory effect."

WHY BERGMANN E-DUMPERS:

Good reasons for the best decision

Flexible usage

Quiet operation

Low-emission

Low operating costs

Little maintenance and service effort

THE MINI DUMPER

Four-wheel drive and articulated steering

The compact power machine

Ideal for gardens, green spaces and small building sites: Its patented articulated steering and compact dimensions make the robust C301 a nimble power package for indoor and outdoor use. The battery-operated electric motor also ensures quiet, emission-free and environmentally friendly operation. Another advantage: Compared to small dumpers with skid steering, the Bergmann mini dumper travels over lawns with four-wheel drives without damaging the ground.

C 301 S

C 301 M

C 301 L

Payload	300 kg	500 kg	800 kg
Length	1,830 mm	1,788 mm	2,550 mm
Width	730 mm	850 mm	900 mm
Height	1,051 mm	1,066 mm	1,365 mm
Empty weight	225 kg	250 kg	500 kg
Skip volume	0.2 m^3	0.3 m^3	0.36 m^3
Battery voltage	24 V	24 V	24 V
Battery capacity	2.5 kWh	2.5 kWh	5 kWh

C 901

THE TRACKED DUMPER

Flexible and powerful

Front dumper

Payload	800 kg
Length	1,530 mm
Width	780 mm
Height	1360 mm
Empty weight	500 kg
Skip volume	0.36 m^3
Battery voltage	80 V
Battery capacity	8 kWh

High tipper

Payload	700 kg
Length	1,530 mm
Width	780 mm
Height	1595 mm
Empty weight	500 kg
Skip volume	0.36 m^3
Battery voltage	80 V
Battery capacity	8 kWh

Self-loader

Payload	800 kg
Length	2,030 mm (+ 400 mm stepping platform)
Width	810 mm
Height	1,360 mm
Empty weight	500 kg
Skip volume	0.36 m^3
Battery voltage	80 V
Battery capacity	8 kWh

Full power on tracks

Precise power on difficult terrain: The Bergmann e-dumper C901 with crawler track not only runs emission-free and efficiently. It is also able to handle rough terrain. The C901 is available as front dumper, high tipper and with self-loading unit. A high payload, compact dimensions, quiet operation as well as simple and intuitive operation qualify the Bergmann tracked dumper for a wide range of applications.

#zeroemission

THE CLASSIC

Compact design and easy to operate

#zeroemission

C 802

Payload	1,500 kg
Length	3,208 mm
Width	1,290 mm
Height (with ROPS bar)	2,215 mm
Empty weight	1,560 kg
Skip volume	0.85 m^3
Battery voltage	80 V
Battery capacity	16 kWh

Real climbing qualities

Good climbing capacity meets simple operation: The Bergmann e-dumper C802 has rightfully earned its classic status. It easily overcomes high gradient angles – always running quietly and with low operating costs. With its emission-free e-drive and compact dimensions, being slimmer and lower than many comparison models, the C802 is optimally suited to interior demolition applications or narrow, inner-city building sites as well as landscaping.

C801e – the little brother with a width of 980 mm and a payload of 950 kg

Clearly laid out and comfortable: the driver's platform

Modern user interface

Robust technology for the three way dumper

Comfort cab for the best overview

Rotating driver's platform for additional safety

Durable technology – made in Germany

THE ALL-ROUNDER

Fully electric and agile

C 804

Payload	3,000 – 3,500 kg
Length	4,059 mm
Width	1,500 mm
Height	2,117 mm
Empty weight	2,750 kg
Skip volume	1.47 m^3
Battery voltage	80 V
Battery capacity	24 kWh

Payload	3,000 – 3,500 kg
Length	3,967 mm
Width	1,500 mm
Height	2,117 mm
Empty weight	2,750 kg
Skip volume	1.24 m^3
Battery voltage	80 V
Battery capacity	24 kWh

#zeroemission

Front runner for general cargo and bulk goods

Reliable, powerful and climate-friendly: With its payload of 3.5 tons, the Bergmann C804 is currently the world's largest all-wheel transporter with fully electric drive. Thanks to its compact dimensions, mobility on any terrain and its low-noise operating characteristics it is the perfect partner for work on urban construction sites, in underground car parks and tunnels. The Bergmann C804 can be operated with a driver's license class B.

THE DUMPER EXPERTS

Customer-focused, competent, reliable: the Bergmann dumper

With a dumper from Bergmann, you are choosing a strong partnership from which you will benefit in the long term: with regard to service, quality and performance.

Know-how since 1960
With more than 60 years experience, we are pioneers in the compact dumper segment.

First grade quality
High-grade, durable quality "Made in Germany" comes as standard for us.

Strong network
We have a comprehensive dealer network and our own rental stock for compact and large machines in Germany.

Down-to-earth family business
In Lower Saxony Meppen in Germany, Hans-Hermann Bergmann manages the company Bergmann in its second generation.

International service
You can find us all over the world with our sales and service partners.

Reliable partnership
Approachable and reliable: We support you for any project.
